

REPRINT OF ARTICLE: **Secret Plan To Tag Every Man, Woman, and Child in the World**
(see last page for the original article)

August 1st, 1989

Does this sound familiar in 2021? This 32 years in the making as article is dated August 1st, 1989: *Coded microchips implanted in every person in the country would tie all of us into a massive computer that could track anyone down at any moment, and plans for such a system are already under way whether you like it or not. The secret scheme is being touted as a service for the protection of the people by high government officials, but some insiders who object to the move say it's just another way for Big Brother to control its people.*

TRANSMITTERS

Top-level national security agents are trying to convince sources in the Bush Administration to begin the project in which every man, woman and child will be implanted with a tiny transmitter, claims Davis Milerand, a critic of government intervention who says he has received leaked information from inside sources. "They're trying to say this will be a good way for authorities to quickly track down missing persons and children, as well as criminals and spies.

INJECTIONS

*But with the expanding technology of today, everything about you could be contained in one tiny microchip, which would be connect to a government computer. **"Any government agency will know what any person has done and is doing at any time. Other sources say the tiny transmitters can be injected painlessly from a tiny gun in humans without them even knowing it through a nationwide vaccination program.** All the government would have to do is make up something like the swine flu vaccine, Milrand says: "Imagine if they said there was a vaccine for AID. **People would rush in droves to get shots.** The doctors themselves may not even know what they're injecting. They could be told the microchips are genetic implants that reprogram the body into fighting disease." He adds: "the program would require all federal state and local government workers to undergo the injections. It would only be a matter of time before everyone is implanted with a microchip, a slave to the government.*

The proponents (search on New World Order/ Illuminati) will be delighted at the progress made and predicted by Bill Cooper in his book Behold the Pale Horse back in 1991 (the above is taken from the

article attached called “Secret plan to tag every man, woman, and child” and an insert in his book). Governments around the world are formulating their strategy to make vaccines mandatory for all without calling it mandatory, but by restricting citizens without vaccines from travel, purchases, etc.; and get this: they call this in the interest of public safety over a **virus no worse than a serious bout with the flu and treatable with other non-vaccination protocols**. Sounds crazy, but who would ever believe that 32 years later that the world’s economy would be shut down, people subject to arrest for family, church or other private gatherings, and now we all would be required to line up like sheeple at the orders of Big Government for *experimental injections*, bypassing even animal trials, because they call it an emergency-- all happening before your very eyes. **Simple 1st step solution: take off your masks and just say “no way in hell.” Citizens should never ask for freedom. They take it.**

Serious bullshit fantasies, you say? After you read below and go to the links, you will be saying “no way in hell,” unless, of course, this is your fantasy come true: “Hello, Steve Smith #90909;” It’s Bill Gates calling. “Get your ass moving or no bitcoin today in your account” You don’t get out of the office much and Gates has the technology to know that, along with every instant of your day and night with his next project. Where have you been? The technology is here and now as some using tracking devices imbedded in their skin. Now Nano-sized bot particles can be injected. These people/entities love numerology and Gate’s patent #060606 and HR6666 are hints about the nature of the tag. As bizarre as it seems that this could even be predicted in ancient times, it’s right there in your face (see Revelation 13:16-18 quote at bottom) and one of the enzymes that produces the light in your skin is called Luciferase. And so it begins with the first Congressional effort to codify what may be the first of many unconstitutional legislative attempts to create a totalitarian One World Government under the guise of attacking the coronavirus COVID-19. If the 6666 number on the legislation strikes you as a bit odd, it is a good guess that there was deliberate intent to send a message – since the new Gates Patent also makes use of the same occult numbers. Some weeks ago the UN’s World Health Organization recommended house to house searches for family members infected with COVID-19 and the removal of those infected into a mandatory quarantine. The American reaction was mostly ‘it could never happen here’ but that has not stopped House Democrats from

A [human microchip implant](#) is typically an identifying [integrated circuit](#) device or [RFID transponder](#) encased in [silicate glass](#) and implanted in the body of a human being. This type of [subdermal implant](#) usually contains a unique [ID number](#) that can be linked to information contained in an external database, such as personal identification, law enforcement, [medical history](#), medications, allergies, and contact information.

Here's the alleged motivation as described in the 1989 article about getting “tagged” and concocting a reason for it:

[Bill Gates Calls for a “Digital Certificate” to Identify Who Received COVID-19 Vaccine](#)

Part of the plan for vaccination against the Wuhan coronavirus (COVID-19) is to inject people with syringes that contain implantable “quantum dot” tattoos, which we reported are a type of microchip that would seem to constitute the Mark of the Beast. And further proof of this comes in the form of the enzyme that Bill Gates has chosen to make it all possible, which has been ominously dubbed “luciferase.”

According to reports, luciferase will activate these quantum dot “microneedles,” as they are also called, effectively delivering the so-called vaccines into people’s bodies. This “near infrared bioluminescence enzyme luciferase” is what will make the Gates vaccines readable through special mobile device apps that will scan the injection site and identify the “digital certificates,” or proof of vaccination, that Gates and others have been publicly announcing in recent days.

With the help of luciferase, a person’s proof of vaccination will be readable in perpetuity long after he or she was injected with a vaccine for the Wuhan coronavirus (COVID-19). If a digital certificate is present, in other words, that person will be allowed to enter a store to buy food or fly on an airplane. If it is not present, then that person will presumably be turned away and told to go get vaccinated if he or she wants to participate in society.

“With each passing day, it becomes clearer and plainer to those of us who are Bible believers that we are living in a very unique time period,” writes Geoffrey Grider for Now the End Begins. “So unique, in fact, that we just might be witnessing the kingdom of Antichrist and the Mark of the Beast system being assembled before our very eyes.”

It doesn't matter what religious belief you might have, this is a historical document that would have been extremely difficult to visualize 2000 years ago "no man might buy or sell" Hello! You just can't make this stuff up:

Revelation 13:16-18 (KJV):

"16. And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: 17. And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. 18. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is six hundred threescore and six."

Revealed: Secret plan to track every man, woman and child

CODED MICROCHIPS implanted in every person in the country would tie all of us into a master computer that could track anyone down at any moment, and plans for such a system are already under way whether you like it or not!

The secret scheme is being touted as a service for the protection of the people by high government officials, but some insiders who object to the move say it's just another way for Big Brother to control its citizens.

No-sleep diet keeps you wide awake

IF YOU THINK there just aren't enough hours in the day, you can now get added time — thanks to a revolutionary new sleep method that helps people stay up nearly all night.

The new sleep system is called "Micro-Somnia," and it's billed as "The Entrepreneur's Guide to Sleep Reduction" by sleep management researcher Benjamin Plumb of Miami.

Plumb gets only 4½ hours of sleep each night and has a few

brief catnaps during the day.

He says that through Micro-Somnia he hopes to introduce short sleep "as a safe viable tool for people to use in increasing productivity."

The researcher cut red meat out of his diet, eats less gooey sweets, takes daily naps and avoids doing high-impact exercises in his leisure time.

He eats stuff like beans, rice and tofu, and does light exercises like walking and yoga.

Besides his prescribed diet and exercise regimen, the chronic sleep expert says he writes down his goals for the next day before retiring for the night — so he'll wake up excited the next morning.

Plumb says his brand of sleep management is only for "highly motivated, extremely goal-driven adults" because children and pregnant women require more sleep for health reasons.
